

Graham Fire Department

1996 FL 80 freightliner kme

Ran and drove ok when parked. Has a water leak at pump but is still functional.

Has a rear main intake leak as well. To our knowledge all water leaks are repairable only reason we are selling is that we upgraded to a newer unit.

All info miles and hours are listed photos. Price reflects the repairs but is negotiable. Asking price is \$12,000 o.b.o. Contact Graham Volunteer Fire Department Chief Scotty Williams 270 543 7274.
